VOLUME CX--NO. 277

ALEXANDRIA, VA. WEDNESDAY EVENING, DECEMBER 1, 1909.

PRICE 2 CENTS

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and verifies the same. This he feels he can well afford to do because the ingredients of which his medicines are made are studied and understood and none will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and system tonic, relieving nervous prostration, neurasthenia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

[Entered as the Postoffice of Alexandria, Virginia, at second-class matter.]
Resolutions in memoriam, of thanks, tributes of respect, resolutions adopted by societies or persons, unless of public concern, will only be printed in the paper as advertisements.

DYNAMITE DOWN CHIMNEY.

Employment by the Black Hand of a new means of destruction of life and property, consisting of the hurling of sticks of dynamite down chimneys, is responsible for the loss of an eye of Abraham Elmich and the destruction of a portion of his household goods. A stick of dynamite intended for an Italian resident in the house exploded when it came in contact with the heat of his kitchen stove at 506 east Thirteenth street, New York Monday night.

Elmich was hurled against the wall of his home and his wife and child knocked down by the force of the explosion. It shattered the stove, the burning coals being scattered around the room, and wrecked the chimney and the room.

After an investigation the police decided the stick of dynamite was intended for Giovanni Paresi, the owner of the building, against whom the Black Hand has waged a cruel and senseless campaign for money.
Giovanni Paresi, owner of the tenement, owns five of six tenements, but keeps secret his own place of residence in fear of death.
Twenty-five families live in the house. They were thrown into a panic by the explosion and by the repeated attempts to destroy the house. The last previous attempt was made six weeks ago, when the stairway was blown up. Two years ago the front door was blown away.

PAINLESS SURGERY.

Painless surgery, anaesthesia without after effects, is the discovery which Dr. Jonnesco, dean of the medical board of the University of Bucharest, who arrived in New York yesterday, has come to America to demonstrate.

Stovaine is a drug already known to the medical world, but by combining it with strychnine and distilled water and injecting it into the spinal cord, the doctor has been able to produce complete insensibility to pain without loss of consciousness, nausea, headache, disturbances of the heart action and other familiar effects of ether and chloroform. In one case a boy with bandaged eyes, on whose brain the surgeon was at work, asked him when the operation was to begin, and then walked to his cot after it was over.

Specialists at Paris and London, where Dr. Jonnesco has conducted clinics, do not all agree that the new anaesthetic is safe in general surgery.

PROSPEROUS FARMERS.

Secretary of Agriculture Wilson has submitted his annual report, declaring in it that the past year was the most prosperous in his history for the farmers. Among the items he mentioned are the following:

Value of farm products for the year \$8,760,000,000, a gain of \$89,000,000 over 1908.

In 50 large cities the profit paid by the meat consumer to the retailer has been 38 per cent.

The profit in Baltimore has been 17 per cent, which is smaller than was paid in any other large city.

The inspection of meat was conducted at 876 establishments in 40 cities and towns.

MARRIED BESIDE CASKET.

Standing by the coffin containing the body of her father, James Howard, formerly secretary of the Washington Park Club of Chicago and one of the best-known horsemen of the country, Miss Jennie O. Howard was married Monday to Irving Herriott, an attorney. The last wish of Mr. Howard, who was fatally injured by an automobile last week, was that his daughter should be married in his presence. Before the license could be obtained Mr. Howard, who was known as the "Father of the American Derby," had become unconscious. He died in that condition. The funeral service was set for yesterday afternoon. Miss Howard and her affianced husband stood beside the open casket and were joined in matrimony. Rev. J. W. Nicely, who later officiated at the funeral, reading the marriage rites.

WOULD DESTROY HIS OWN BOOK.

Booklovers and students of Confederate achievements have had their curiosity aroused by an advertisement, presumably written by Capt. John Cussons, the old Confederate soldier of Glen Allen. The notice reads as follows: "A glance at 'Current History' is still called for, though out of print. The stuff was written in passion and ought to be destroyed. A dollar a volume will be paid for it. No pamphlets wanted."

The work referred to is a charming volume containing many vigorous essays by Captain Cussons, who appears to be making an effort to buy his own book for the purpose of destroying it. The book dwells chiefly on unfair histories of the civil war.
